Global security solution: SecurAssist
How to activate your membership

As an employer with Group or Voluntary Life insurance or Accident insurance with Emergency Travel Assistance from Sun Life, you are entitled to a service called SecurAssist, a program from Assist America, designed to meet your organizational and personal security needs.

Protect your organization's most valuable assets: your infrastructure, information, and employees. Activate your membership at www.securassist.com.

Whether you operate one office or many across the globe, SecurAssist gives your organization access to an elite team of security consultants to answer questions, help you analyze your existing security procedures, and develop an overall security plan. To take advantage of this special program, you'll need to activate your membership on the SecurAssist website. This flyer includes all of the information you'll need to activate your membership.

Who should register for SecurAssist?

Your Risk Management department—or the area responsible for developing and managing your organization's security strategy—should register for this service.

The information you need to register

Before you begin registration, please make sure you have the following information available:

- Organization name and address of your headquarters
- Primary and secondary contact people— people from your Risk Management department or other department responsible for organizational security should provide their contact information for the SecurAssist service.

- The countries in which you operate and the number of employees in each country
- Industry type
- Existing security programs
- Security issues most important to your organization

Registration instructions

1. Go to *www.securassist.com*
2. Click on the "CLICK HERE TO SIGN UP" button on the homepage.
3. Enter this reference number in the Employer's registration field: 01-AA-SUL-100101
4. Click *Log in*
5. Complete the rest of the registration form (see the list of required information above) and select Register.

Start using SecurAssist resources immediately

Once you're registered, you'll get immediate access to a knowledge base of security intelligence, including:

- Specific, targeted advisories based on employer's locations and needs
- Current security, medical, and travel advisories and country security profiles

A SecurAssist advisor will contact you within 1 week to arrange a consultation on your organization's overall threat vulnerability.

Employers that need additional global strategic and tactical security services from SecurAssist may purchase those services at an additional cost directly through Assist America.

Whenever you wish to return to the SecurAssist website, go to the home page and select Member Sign-In. Use this reference number to log in: 01-AA-SUL-100101.

Need help?

If you are having trouble registering on the site, please call the SecurAssist help number: 609-921-7233.
